## LITTLE PIANO VIRTUOSI COURSE

**For all piano performers from the age of 6 to the age of 11**

How many times have we complained that the pianist's life is a lonely one and how many times have we asked the question: "Is there something there for our piano students to join in and start experiencing the fun and the socialising that the other instrumentalists have by joining orchestras, bands, choirs and ensembles?"

Making music at the piano sometimes is a very lonely task. But just try it with a friend - and it becomes a powerful experience to be remembered. Full of fun and interaction, it helps you achieve your goals faster and improves your learning skills no end.

This course will be trying to address exactly this issue. This will be a fun, sociable and imaginative way of looking at the piano, the history and the stories behind musical works, the inspiring creative lives of composers, the fun and the art of conquering this beautiful instrument - the piano - and the fun of playing with others and creating imaginative music together. We are aiming to give our little pianists a sense of belonging to a larger, interesting and creative group of musicians.
